ΛΓIVO Parking Terminal

For intuitive, ticketless short-term parking

Whether equipped with barriers or without, Arivo Parking columns enable efficient, ticketless car park operations.

Positioned at the entrance and exit of your parking area our parking terminals ensure a seamless and hassle-free parking experience for your customers!

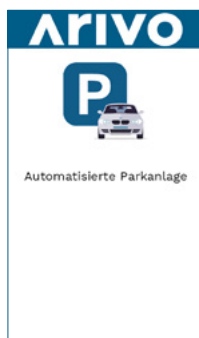

Advantages

✓ **Visual barrier at the entrance and exit**
Signals paid parking on entry & enables cashless payment and redemption of discounts at the exit

✓ **Intuitive operation**
Thanks to simple design & integrated payment terminal

✓ **Emergency call button & intercom system**
As back-up & with VoIP function (any telephone number can be stored as an emergency number)

✓ **100 % digital & maintenance-free**
No maintenance-prone parts such as receipt printers or ticket machines for minimal operating costs

✓ **Weatherproof & robust**
Thanks to robust, powder-coated housing

✓ **Entry via QR code**
As backup for long-term parkers (for barred parking systems)

Intuitive operation for your parking customers

Parking terminal at the entrance

The entry pillar serves as a visual barrier, indicating paid parking, acts as an emergency call backup and also enables long-term parkers to enter barred parking areas via QR code.

Display example

Parking terminal at the exit

The exit column allows for easy payment of parking fees using NFC-enabled debit cards, credit cards, or mobile payment methods right at the exit. It also features a QR code reader for processing refunds and an emergency call button.
